

ANNUAL ICE CARNIVAL READY FOR WEEKEND

In a flurry of last-minute details, preparations are going ahead in all areas for the presentation of the 15th Annual Ice Carnival in the Drayton Valley Civic Centre on April 10th and 11th.

Shown here are Vikki Wardlow and Jim Wedman who will be skating "Hanzel and Gretel" in the ice carnival this weekend. Vikki is a senior instructor in the Drayton Valley Figure Skating Club.

Another senior instructor, Aileen Johanneson shown above, will skate "Alice in Wonderland" in the annual ice carnival to be held in the Centennial Civic Centre April 10th and 11th.

Theme of this year's carnival will be "Fantasyland" and characterizations cover the whole range of well-known nursery rhyme and fairy tale people.

About 200 skaters, from beginners to instructors, will take part in performances that will be held Friday evening and Saturday afternoon and evening.

An evening of outstanding entertainment is in store for spectators who will be transported to a land of fantasy by costumed skaters before a backdrop of colorful sets and lightings.

A highlight of the Saturday evening performance will be the crowning of the Carnival Queen during intermission.

Three girls are competing for the queen title and are now busy selling tickets which will account for a portion of the judges' total points. The three are Sherry Anderson, sponsored by the Producing Companies; Joy Meraw, sponsored by the Frank Maddock High School; and Jo-Anne Swendseid, sponsored by the Service and Supply Companies.

The Carnival is sponsored annually by the Figure Skating Club and the Rotary Club with proceeds going back into skating operation and the work of Cubs and Scouts in the Community.

COUNCIL BRIEFS

At the last regular meeting of Town Council Mrs. Mildred P. Lindgren was present to discuss the possibility of opening a parcel of land between Block 45 and Block 23 for the purpose of supplying R. 1-B residential housing.

A need presently exists for this type of zoning to move a number of homes into the town and also by an independent company in-

terested in building homes in the \$14,000. price bracket for those unable to meet the present N.H.-A. standard.

Mrs. Lindgren also requested a three-year deferment of local improvement and frontage charges and added that she might entertain an offer from the town for the property if it was interested in subdividing the property itself.

Council agreed to the deferment of charges while the property remains in Mrs. Lindgren's hands if it is subdivided.

Council discussed the possibility of purchasing the property and offered \$7500.00 plus one lot for the present house that would have to be moved when subdivided. The offer was not accepted by Mrs. Lindgren and the matter closed with the indication that further negotiation would follow.

Council agreed to a request from Goliad Ltd. that trucks would be allowed to use town streets during the break-up period to transport necessary loads.

RUSTY ZANDER ANNOUNCES BID FOR PROGRESSIVE CONSERVATIVE NOMINATION

A veteran of more than twenty years in municipal government, Rudolph (Rusty) Zander of Tomahawk, announced last week his intention of seeking the Progressive Conservative nomination for Drayton Valley Constituency.

Mr. Zander joins Drayton Valley Town Engineer Bill Tuttle in seeking the P.C. nomination. Mr. Tuttle announced his candidacy in March for the nominating convention which will take place in Drayton Valley on Thurs-

day, April 16th.

Born and raised in the Tomahawk area where he still farms, Mr. Zander has been active in municipal affairs for the past twenty-two years. He has served as Councillor, Reeve and Deputy Reeve of the M.D. of Stony Plain and more recently the County of Parkland.

He is a member of the Board of Directors of the Alberta Association of Municipalities and Counties and a member of the

Drayton Valley Hospital Board. He is a former member of the Stony Plain Hospital Board and was Chairman of the Stony Plain-Lac Ste. Anne Health Unit for sixteen years.

New Regulations Govern Use Agricultural Chemicals

A regulation respecting the use and handling of agricultural chemicals came into effect on April 1st under the Alberta Agricultural Chemicals Act. This regulation states that:

A pesticide or material mixed or treated with a pesticide must be transported separately from food and drink, and that it must be stored in such a way that there is no danger of contamination or injury to human beings, animals or plants.

When a pesticide is transported

in bulk, the container must have a label giving the name of the product, its chemical name, the chemical concentration and the name of the manufacturer or owner.

All tested seed grain must be transported in sacks or some other type of sealed container, unless it is being moved in bulk, when it must be securely covered with a tarpaulin or similar covering to prevent spillage.

Anybody who sells or supplies seed grain which has been treated with a pesticide must provide the purchaser with a written statement telling him that it has been treated with a pesticide and pointing out the precautions he must take when handling it. The statement must also include the words "Treated Seed is Poisonous".

Nobody can apply a pesticide to an open body of water unless he has a permit from the provincial board of health allowing him to do so.

Pesticides, mixtures containing a pesticide, material treated with a pesticide and containers used to hold a pesticide must be disposed of in the manner recommended by the manufacturer. Sanitary landfills operated by municipalities may be used for disposing of pesticides etc., providing arrangements have been made with the local health authority.

Nobody can use an agricultural chemical except for the purposes for which it has been registered. Qualified personnel employed by research institutions and government officials involved in testing are exempt from this rule.

Restricted and prohibited agricultural chemicals may be used only under a special permit which must be obtained from the Alberta Department of Agriculture.

Inspectors have the authority to suspend or terminate the use of a pesticide or the method of application if they consider either to be dangerous.

How did those six Sioux get on our beer label? (Six? Count 'em. Six.) To say nothing of three crows. And a Hupmobile. And twenty-nine trees. And our House of Lethbridge. How? Frankly, we don't remember. It all happened many moons ago. But one thing's certain: we'll never change our label. Or the great beer behind it. In Lethbridge, we go right on brewing it the slow, natural way, for real flavour. We have spoken.

AFTER THE FAMOUS FORMULA OF THE HOUSE OF LETHBRIDGE

Report from the Legislature

By TONY COX

The government is awaiting a written submission from the National Farmers Union after a confrontation with nearly 1,500 farmers in the Legislative Building.

The crowd, which at one stage threatened to invade the legislative chamber wanted provincial government recognition of the NFU.

It was the largest demonstration in the history of the legislature according to some senior MLA's and the first time ever that placards had been seen inside the building itself.

Before the massed crowd, Premier Strom, flanked by several plain clothed police, listened intently as NFU President Roy Atkinson of Saskatoon outlined resolutions passed at an NFU rally earlier in the day.

The farmers, who expressed opposition to the poultry marketing monopoly in Alberta by releasing several live hens in the rotunda, urged the government to take over power and other privately-run utility companies in the province.

Other Resolutions Included:
Cancel farmers' \$1,000 debts

resulting from the stop gap provincial loans aimed at giving them financial relief because of successive crop failures.

Suspend the rules which can take land away from homesteaders who fail to expand their land clearance at a time when Ottawa is subsidizing farmers to take wheat acreage out of production.

To have feed grains placed under the jurisdiction of the Canadian Wheat Board.

Recognise the NFU as the organization representing all Canadian farmers.

The NFU is currently engaged in a bitter struggle with the newly-formed Uniform organization claiming it alone represents the voice of farmers.

Amendments to the Landlords and Tenants Act will allow local governments to establish review boards to curb rent abuses and advise both landlord and tenants of their rights.

Based on Ontario's legislation, the changes also provide greater protection for the tenant by requiring a landlord to give written notice 90 days in advance of any planned rent increase.

Another change would require landlords to pay 6% annual interest on damage deposits and give 24 hours notice to tenants before entering a rented accommodation.

The bill does give the landlord permission to enter rented premises in cases of emergency or at "reasonable hours" after notice of termination of the tenancy has been given.

All sections of the Act, except those dealing with the 90-day warning period, which is effective immediately, will become law July 1st.

The Opposition Conservatives failed in their bid to have the legislature suspend regular business and hold an emergency debate on a special report tabled by the Ombudsman.

The report dealt with the expulsion of Mr. R. J. Philipzyk from his employment with the Edmonton Real Estate Board in 1966. Tory critic Lou Hyndman described the matter as crucially important suggesting it could jeopardise the independence of the Ombudsman.

He said the issue surrounded the concept of whether the government had the power to circumvent the Ombudsman by establishing a public inquiry when evidence is produced when the government doesn't like.

Attorney General Edgar Gerhart said the Ombudsman merely was asking direction from the House whether the report should be made public in view of the government decision to establish a commission to investigate the case. Government House Leader Fred Colborne said the matter would be dealt with as regular business just as soon as possible.

The job of enforcing agricultural chemical control legislation has been handed to local governments.

The new, stiffer legislation will allow municipalities to utilize sanitary landfill sites for the disposal of pesticides. Also published was a list of agricultural chemicals prohibited except by special permit. These included fluoracetate, parathion, thallium and its salts and zinc phosphate.

LETTERS TO THE EDITOR

Editor, Western Review
Dear Sir:

It is my opinion and that of the members of this club, that statements such as the one made by Dr. Norbert Berkowitz March 26, concerning coal strip mining is a good example of the type of irresponsible statements that he attributes to other people on the subject. His reply to the press on the reclamation of the land by the coal industry was, "In many instances the reclaimed land will be a damned sight better than the goat pasture that it was before." Anyone who has ever seen such a mining sight wonders better for what?

The decision for the amount of restoration, if any, is left to the coal co's involved and the Dept. of Mines and Minerals, whose main interest is naturally that of profit. It seems our government once again cannot see beyond the immediate dollar. What we need now, is a strong Reclamation Law, along with a separate department to see it enforced.

In my opinion, the land need not be improved, anymore than it need be destroyed; the way nature has maintained it is just fine.

Editorial — Comment

Better Days Ahead for Rural Communities?

A considerable amount of talk in recent days about industrial decentralization in Alberta holds out the hope that perhaps, finally, persons besides those living in the smaller communities are becoming aware of the fact that Edmonton and Calgary are fast becoming human ant-hills to their own detriment, and at the expense of the rest of the province.

Let's hope it goes beyond talk and we begin to see some concrete evidence of a real effort to encourage industry to locate in any of the wide variety of sites throughout the province beyond the boundaries of major cities. It could well start with more decentralization by the provincial government, several of whose departments could probably function adequately from one of the smaller centres that offer most of the amenities of modern life.

Civic leaders in the smaller communities are hard-headed enough to know their communities are not likely to become industrial giants. They are, however, unanimous in their desire to see the establishment of something to augment the basic industries most of them presently depend on to maintain population and commerce.

There's no magic involved in attracting industry. If a community has the necessary raw material or power, water and required facilities, an industry that is site-shopping can be encouraged to at least look.

Stimulating this look at sites throughout the province should be the provincial government augmented by aggressive fact-finding and selling by a group or groups within the communities involved.

Many Alberta centres, including Drayton Valley, now have development boards working toward the goal of determining facts about their area and where the community might be heading. The efforts of such groups are likely to accomplish more than we have seen in the past, especially in view of the increasing expressions by those in the know about urban strangulation and rural stagnation.

Alcoholism and the Community

North American communities are becoming more aware of the tremendous costs incurred in the area of family, industry, and social services by alcoholism.

The Drayton Valley area is fortunate in having an active "A.A." group helping to bring relief to people with an alcoholic problem. Al-Anon (a branch of A.A. for wives, husbands and friends of alcoholics) also is represented here.

The general public is invited to sessions of the Drayton Valley A.A. Roundup to be held May 2 and 3, where you, as an interested citizen, could gain a greater insight into the workings of A.A.

For anyone with misgivings about his use of alcohol, consideration might be given to these "13 Steps to Alcoholism".

Which step are you on?

1. You have begun to drink.
2. You start having "blackouts".
3. You find liquor means more to you than to others.
4. You consistently drink more than you mean to.
5. You start excusing yourself for drinking.
6. You start taking "eye-openers".
7. You begin to drink alone.
8. You get "antisocial" when you drink.
9. You start going on berders.
10. You know deep remorse...and deeper resentment.
11. You feel deep, nameless anxiety.
12. You realize drinking has you licked.
13. You get help or go under.

A prominent author and speaker, Mr. George Strachan, with twenty-five years in the field of alcoholism, will be a featured speaker of the meeting. A1-Anon speakers will also participate.

PARKCOURT NEWS

At this time of writing it seems like spring is here to stay and we all hope the fine weather continues until the roads are really dry again. The muddy roads rather curtailed some of the Easter doings. The children's party was cancelled due to the upset conditions.

The Easter dance was held in the hall on Monday night and the crowd enjoyed themselves dancing to the music of the Ohl Orchestra. At the lunch intermission the parade of Easter bonnets took place. Mrs. Coeren Johnson, Mrs. Mary Pauldure and Mrs. Lucy Tuftin walked away with the prizes.

Miss Margaret Young has been on the sick list. We wish her a speedy recovery. Also Mr. Albert Tuftin who was taken to Stony Plain Hospital on Wednesday.

We are sorry to hear Mr. De-jong suffered a stroke.

Mr. and Mrs. Kurt Fausak and family spent Saturday in Edmonton. Don stayed for a few days holiday with his relatives.

Mr. and Mrs. Ray Carr and family are spending a two week holiday in the district visiting relatives. They have just recently become the parents of a baby daughter.

Mr. and Mrs. Ron Weigle and family of Fox Creek were down to visit his parents.

Mrs. Rae Weirt spent most of the Easter holidays visiting her parents in Seattle.

Many people from the district attended the funeral of the late Mrs. John Wilson in Edmonton on Wednesday. She made her home in this district for many years before moving to Mayerthorpe. Our sympathy is extended to the family.

Under the Toadstool

March 2, 1970 -- The Brownies played Kim's Game, with Debbie Wasyk the winner - naming 15 of the articles. Jo-Anne Lukach, Debbie Ranks and Jerry Thomas told stories about other countries belonging to the World Association. Mrs. Machan, our local President, presented Mrs. Rita Janeskwski with her Brown Owl Warrant pin, and also gave out 60th Diamond Jubilee badges to all the Brownies.

March 9, 1970 -- The Brownies worked on their Golden Hand and Golden Bar tests. Lynn McKay told us, in Pow Wow, about her family of rabbits.

March 16, 1970 -- Today, Mrs. Joan Gurel, R.N., came to visit with us and talked to us on First Aid, Personal Hygiene, etc. which was most interesting and informative.

March 23, 1970 -- We had a special meeting today, for Easter. The sixes all went on an Easter Egg hunt and in Pow Wow, Brown Owl told us the story of Easter.

High Praise For Japanese Hospitality

Roy Burrows, who returned recently from a trip to Japan, reports enthusiastically about his visit to that country and the hospitality extended to the Canadian group. He was one of the Alberta Datsun dealers selected for the trip sponsored by Nissan Manufacturing.

Following a charter flight from Vancouver, the group spent two weeks visiting Nissan factories and places of interest, highlighted by a visit to Expo.

Mr. Burrows was impressed with the strides being made by Japanese industry and the modern, progressive outlook apparent throughout the country.

BURTONSVILLE

Dean and Tony Terribain of Edmonton spent the Easter Holidays with their Grandmother, Mary and David Tattersall.

Axel and Emma Homme spent a very nice Easter weekend with their three youngest children at the Wheadon Home at Whitecourt. They returned home with Melvin and family when they came to visit his brother Cecil on Sunday.

There was a good turn out at the church for Easter Sunday. Some folks from Mewassin and Fallis also attended.

Sympathy goes out to the late Riley Walker children and family on the death of their mother, Mrs. Helen Walker who passed away in Lacombe while on her way to Calgary to spend Easter with her son Doug and family.

Mrs. Walker was a sister-in-law to Mrs. Marie Raymond and Mrs. Emma Homme.

Burial took place in the Burtonsville cemetery. After the service about 75 friends and relations gathered at the house of Axel and Emma Homme.

Mary Tattersall has been feeling very miserable with an infected tooth and the flu.

Stony Plain Wins Midget Series with Tomahawk Flyers

The Stony Plain "Falcons" defeated the Tomahawk "Flyers" two games to none to advance into the finals against Onoway, who had previously taken out Wabamun in two straight.

In the final game between Stony Plain and Tomahawk the score was 5 to 1 and leading the Stony attack was Roy Giese and Tom Stevenson, each with two tallies and Rod Enders netted the other. Replying for Tomahawk was Carmine Solomin.

FINALS:

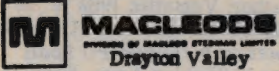

In the first game of the finals between Onoway and Stony Plain the Stony club was on the best side of a 3 to 1 score. It was a very well played hockey game as both clubs used the basic fundamentals to get the job done; skating, shooting, and passing.

Stony opened the scoring with the only tally of the first period at 11:55 by Tom Stevenson. In the second period, Stony again scored the only goal, with Stevenson again doing the damage. Stony Plain lengthened their lead in the final period on a goal by Rod Enders.

Onoway spoiled a shut out bid by Randy Zutz as Brian Laraque took a relay from Ernie Massey, slipped it passed Zutz, for the score at 16:34.

Alder Flats Wins Final With Rocky

The excitement by the multitude of spectators who came out for the final game of the playoffs at Rocky Monday evening, March 16th, reached its peak when Rocky Mountain House tied the game in the last nine minutes of play causing the game to go into sudden death over-time. The roar of the crowd was almost deafening when Darrell Patten scored in the first couple minutes of overtime, breaking the tie and bringing the Aces to a glorious win.

Bob Stemberg scored the only other goal for the Aces in the first period. The second period was scoreless but the fans had some tense moments when our goalie broke his stick and played two minutes minus stick and 12 minutes with a regular stick until the end of the second period. A special thanks to Richard Russell for his efforts in obtaining a goal stick. Dennis Maciborsky did a terrific job by not allowing any goal during that time.

Rocky made their only goal in the third period.

It made a clean, fair game by having two official hockey referees from Drayton Valley officiate. They did a fine job and showed no partiality. It was a fast-moving and exciting game from start to finish and we are very proud of our team and the coach Mr. Patten who has put so much of his time, energy, and hopes into the club.

A pot luck supper was held Good Friday evening in honor of our hockey team with a very good turn out. Mr. Pearson showed two films and acted as M.C. Coach Lyle Patten spoke on behalf of the Club and Dale Seargeant made a gift presentation to Mr. Patten from the hockey team.

Morris Dunn also had a few words to say in favor of our hockey team and also announced the passing of the hat to make sure we will always have a spare goalie stick along to the games.

Tips for Selecting A Yearling Bull

Do you want to buy better genetic quality for your beef herd? How about a yearling bull with a high performance rating?

The Alberta Department of Agriculture's livestock specialist Sid Lore says that \$500 to \$800 will usually buy an average two-year old bull, but for the same money you can probably get a yearling bull that tests in the top 30 per cent of the same herd.

He stresses that a bull to be used as a yearling should weigh 950 pounds or more at a year old, and that you should use his performance records when you select him. These records are the only

guarantee you have that he is among the top performers in the herd.

According to Mr. Lore, the "birth to end of test" index in the performance rating is the best indicator of an animal's gaining ability. The weaning index is a good indicator of its dam's milking ability.

The herd or group of bulls should always be appraised for overall size, warns Mr. Lore, because a high index yearling bull in a group of 700 pound bulls still may not be big enough to use this year or to improve your herd. A high index bull in a group of 1,000 pound animals, on the other hand, should be satisfactory.

A bull should not be used for breeding until he is about 15 months old. A well grown yearling bull should be able to service 20 to 25 cows in a season. Mr. Lore recommends giving a yearling bull supplemental feed after the breeding season and during the first winter. A little extra care at these times will enable him to develop to his full potential.

Any bull should be bought at least a month before he is to be used so that he has a chance to adjust to his new environment. If his previous owner was feeding a high energy ration feed, the ration should be gradually reduced to three or four pounds of grain a day. Hay should be provided if the pasture is poor.

Mr. Lore also points out that it is a mistake to rely on an unproven bull. In herds where one bull is normally used to service 30 to 35 cows, the only bull should be retained and used until you are sure that the new animal is settling the cows. This precaution is important with any untried bull, but doubly so in the case of a yearling bull.

Beef Club Holds Speaking Competition

The Tomahawk 4-H Beef Club held its public speaking competition on March 14th in the Tomahawk Hall.

Contestants were Kathy Goertz, Cheryl Ditchuk, Pauline Dunbar, Kerri Dunbar, Brenda Zander, Linda Peskunowicz, Lawrence Watson, Rodney Jouan, Allan Jouan, and Bobby Enjeseski. Two members from the Moon Lake Beef Club took part also. They were Debbie Hansen, and Ralph Johnson.

Mr. M. McCullagh from Drayton Valley and the leader of the Tomahawk Beef Club, Mr. Dave Case were the judges.

The two contestants who were chosen to represent Tomahawk Beef Club in the semi-finals held on March 20th are Linda Peskunowicz and Kathy Goertz.

Each contestant received a 4-H pen and pencil set, and Mr. McCullagh also received a little gift for being one of the judges.

A delicious lunch was served by the 4-H mothers.

'Wild Splendor' Coming Here

An outstanding evening's entertainment is in store for Drayton Valley and area residents on Saturday, April 18th when Al Oeming's "Wild Splendor" will be shown in the Frank Maddock High School Auditorium.

The movie, playing to capacity audiences throughout the province, is a beautifully filmed account of wildlife of the North American Continent. Viewers will follow the camera from the Florida Everglades, the Central Region and into the Canadian Arctic.

Cancer Canvass

Once again volunteer canvassers for the Canadian Cancer Society will be going from door to door in Drayton Valley starting the first week in April. Please be ready with your donation when the canvasser calls on you.

The coming year should fill us all with excitement as we anticipate new strides forward in research, education and fund raising.

As a unit of the Canadian Cancer Society we have the ability to reach new heights, with the ever-increasing need for planned combat against cancer our desires must result in Action!

ANNOUNCEMENT

At the requests and pressures of many residents in the new constituency of Drayton Valley I wish to announce, that I will enter the race and seek the nomination for the Progressive Conservatives at the nomination Meeting to be held in the Elks Hall in the Town of Drayton Valley on April 16th at 8:00 p.m.

The chief concern being the ugly mess of the farming industry, and the effect it has on the small urban areas within the farming community.

The increased costs in education, health and welfare, which are now taking about 70% of our tax dollar.

The lack of money for the expansion of the smaller businesses in the urban areas.

These were the chief concerns, but many more could be added, but space and time does not permit.

I am also greatly concerned about the state of the farmer because I am one. I am also concerned about Health, Education and Welfare because I am in local government. I am deeply concerned about the future of our Towns, Villages and Hamlets and services that they render to our community as a whole.

If you are a resident of our constituency and you are concerned talk to your friends and neighbors and bring them along to the nomination meeting of the Progressive Conservatives in the Elks Hall in Drayton Valley on April 16th at 8:00 p.m.

The Edmonton Better Business Bureau advises farmers not to entrust their account books for calculating their income tax returns to a stranger.

There is nothing to stop anybody from going round the country saying he is an accountant, collecting accounting books, charging a fee in advance and then not doing the work properly. In fact, this has happened in the past. The farmers ended up having to pay a penalty because their tax returns were late being filed. The point here is that it is the farmer, not his accountant, who is responsible for the information on his tax form and for getting the forms in on time. It is he who is penalized if they are wrong or late.

Because chartered accountants are stringently policed by their own organization they have to do the best job they can for their clients. Any deviation is brought to the attention of the association and the offender is punished.

The Better Business Bureau also warns against putting out a large sum of money in advance of receiving goods or services. It has cases on file where a farmer has put out thousands of dollars for a building which the salesman promised would be delivered. He had nothing more to go on than the salesman's word. Under such an arrangement it is not uncommon for a building to take months and even years to arrive.

Lay-away plans work on a similar principle but usually involve less money. A salesman may go into a district and persuade the ladies to buy a set of pots and pans on a lay-away plan. Frequently, he promises them a free set of dishes as an added incentive. This type of contract usually states that the goods will be delivered within a specific period after full payment has been received. When these obligations have been met and the goods still have not arrived, the purchaser writes to the salesman. Invariably her letters go unanswered and she has to bring pressure to bear before she gets results. The chances are she could have saved herself quite a lot of money if she had done some comparative shopping when she was actually ready to buy, and, in the meantime, the money she had been paying out would have been in the bank earning interest.

The moral is never put out money before receiving goods or services unless you know the reputation of the person or firm you are dealing with. If you don't know their reputation, check on their honesty, the quality of their work or product and the satisfaction of previous customers.

Farewell Party

All friends of Pastor and Mrs. Isaacson are invited to attend the farewell party to be held in their honor Sunday, April 12th at 9:00 p.m. in Calvary Baptist Church.

EVANSBURG NEWS

Warmer weather these days has made the snow begin disappearing and spring seems to be just around the corner. Baby chicks have begun to arrive on the farms and even our place has the addition of a calf to the barnyard family.

The Scouts of the 1st Pembina Valley troupe held a very successful bottle drive recently. The boys worked all day gathering bottles from homes in Entwistle and Evansburg. They would like to thank everyone for giving bottles to them in order for them to get supplies for Scouting activities. Another drive is planned to

take place sometime before the end of the school year.

At this time, all the school children are enjoying a few days out of school for the Easter holidays. Some of them no doubt have gone on trips to various points to visit relatives and friends.

The Volunteer Firemen held their annual supper dance a couple of weeks ago. A fine crowd turned out to enjoy themselves and support the men in their various projects. The following members of the team were presented with trophies for perfect attendance at the meetings: Fred Croft, Carl Bjornstad, Robert Marshall, Frank Schroder, Bill Brett, Jerry Perhsson, Jim Hunter and Steve Lamoureux.

A bus load of 4-H members went into the city to see the Rodeo of Champions on the 23rd of April. They all reported having had a good time.

The directors of the Historical Society held a meeting recently. They decided to try and have an official opening sometime this summer, the exact date to be set later when other community activities have been co-ordinated and more work done on the building. It was reported that some things of historical value had been moved to the site just recently.

With all this thawing weather, town foreman, Jim Senetza is being kept busy keeping culverts opened for the water to drain off.

No Work Available In Alaska

"Don't head for Alaska until you check with the Canada Manpower Centre," was the warning received today from Mr. Fox, manager of the Edmonton CMC.

Mr. Fox says that Canadian workmen are responding by mail, phone and in person to advertisements which promise job information about well-paying oil-field work in Alaska.

Alaska Commissioner of Labour Thomas Moore, in a letter to the Department of Manpower and Immigration, advises that there is no work in Alaska unless it is prearranged with companies operating there.

Mr. Moore says that Fairbanks and Anchorage employment offices have been deluged by calls from workmen who have apparently read the advertisements. However, he adds, the unemployment figure for Alaska is 8.5% and is likely to increase.

The flu bug has hit quite a few of the residents around the area, putting some of them in hospital.

And speaking of hospitals, our son, Jefferson, is a patient in an Edmonton hospital undergoing surgery. We hope to have him home soon again.

power Centre reports receiving as many as 50 inquiries a day about opportunities at Alaska's north slope. Many of the inquiries are being made in person. The manager says he is concerned that "these people will line the highway to Alaska for nothing." Besides, he adds, there is no accommodation in Whitehorse.

Challengers Cap Great Season With Tourney Win at Hinton

The Burrows Motors Challenger travelled to Hinton for a Bantam round robin tournament on Friday and Saturday, April 3 and 4, sponsored by the Hinton Athletic Association and came home victorious.

The teams participating were Hinton Flyers, Hinton Jets, Edson Oilers, Bentley Legion and the Challengers. It was a round robin tournament with the two teams with the highest points playing in the final game.

At noon on Friday the Challengers met the Bentley Legion team. The two teams played a fast clean game of hockey and matched each other goal for goal and at the end of the game the score board read 5 to 5. Dean Samis led the way with a "hat trick". Mark Hutton had one goal and two assists, Ron Bartek had one goal and one assist. Bruce Hutton added an assist.

At 6:00 p.m. Friday the Challengers met the Hinton Flyers in a rough game. The first period

saw the Challengers pull away to a 3 to 1 lead. The Flyers came back strong in the early part of the second period and moved ahead 5 to 3 at 11:36.

The Challengers came back with two goals late in the second period to even the score to 5 to 5. The teams traded goals in the third period and for the second time in the day the Challengers found themselves with a tie game of 6 all.

Mark Hutton lead the way in this game with two goals and one assist. Bruce Hutton, Xavier Coppens, Kevin Reich and Ron Bartek each added single goals. The Flyers were assessed five minors and one misconduct.

Saturday morning at 8:00 a.m. the Challengers were back at the arena to meet and defeat the Hinton Jets 15 to 3. For the second game in a row Mark Hutton led the way with a "Hat Trick". Double goal scorers were Lindsay Machan, Bruce Hutton, Bob Bur-

rows and Zane Reinhart. Single goals went to Xavier Coppens, Box Hall, Cameron Selin and Ron Bartek.

The Burrows Motors Challengers next met the Edson Oilers at 1:00 p.m. It was another rough contest with Edson having seven minor penalties to the Challengers two. For the second game running Mark Hutton scored another "Hat Trick" to lead the team to a 5 to 4 victory. Zane Reinhart came up with the other two goals.

The Challengers held a 2 to 1 first period lead and stretched this to a 4 to 2 lead by the end of the second period and moved out 5 to 2 early in the third period and then held off a determined Edson attack in the third period to hold on for a 5 to 4 victory.

At 8:30 Saturday evening the circle had completed itself and the Challengers were back facing the Bentley Legion team again in the finals.

Mark Hutton came up with his third "Hat Trick" of the day to lead the scoring. Zane Reinhart and Bob Hall each added two goals.

The Challengers dominated the play in the first period and left the ice with a 3 to 1 lead. The second period was a close checking session and each team came up with one goal.

The Bentley team came back strong in the early part of the third period to take a 5 to 4 lead at the 2:50 mark. The Challengers came back quickly to score three goals in two and half minutes and take the lead 7 to 5. The Challengers then kept the pressure on and held their lead by controlling the play for the last ten minutes of the third period to gain the championship.

Each of the boys received an individual trophy for winning the tournament. Dean Samis won the Best Defenceman trophy.

Members of the team would like to thank the Hinton ladies for the delicious meals they prepared and also to the Hinton Athletic Association for providing accommodations. Thanks again for the hospitality.

This completes a very successful season for the Burrows Motors Challengers. They won the Hi-Way 16 West Bantam League regular schedule undefeated and won the playoffs with only one loss.

The team would like to take this opportunity of thanking all the parents who drove at one time or another and for their support. Also "Thanks" referees, we know this is a hard and thankless job.
